

Gulf Bend Center Wellness Community to Celebrate “Groundbreaking” 5 Year Anniversary

(Victoria, Texas) – On Thursday, May 30th, Gulf Bend Center’s Wellness Community will be hosting an open house from 4:00 pm – 6:00 pm at 1009 N. Nimitz.

Since opening its doors to residents in June 2015, the Wellness Community has been dedicated to providing better outcomes for individuals with a co-existing physical and mental health condition through a therapeutic residential setting. The Wellness Community is a 32-unit transitional apartment living community designed for adults that desire to learn healthy behaviors to improve overall wellness and quality of life. In this innovative community, residents enjoy an independent way of life in a setting that promotes the resident’s sense of responsibility and self-respect.

Since opening, the Wellness Community has served as home to over 100 individuals. “Without the generous support of area residents, businesses, and organizations, the Wellness Community would not exist and would not be celebrating this milestone, said Tiffany Seiler. We have been blessed with the opportunity to affect many lives in a very real and meaningful way.”

Join Gulf Bend Center, as we celebrate 5 years of growth, new beginnings, and life change at The Wellness Community. There will be light refreshments with a tour of the community and grounds. Come hear from community partners and see what we've been up to.

About Gulf Bend Center

Gulf Bend Center is a regional provider of integrated behavioral health and intellectual & developmental disability services for Calhoun, DeWitt, Goliad, Jackson, Refugio, Lavaca and Victoria Counties. The mission of the Center is to improve the quality of life in our community for individuals and their families by providing excellent and trusted care for wellness. Our experienced staff provides a wide array of treatment and support services in a professional and compassionate way. We not only support patients, but we also support families and friends, giving them the tools they need to provide the proper level of care for their loved ones.
